

# DÉJÀ VU

What is it?

(STILL A MISTERY)

*Is the filling that one has lived through the present situation before .It is literally translated"already seen".*

**The purpose** is to find out the main reason **why we experience Déjà vu**. What causes Déjà vu ?Does déjà vu provide the theory of parallel universes or reincarnation ?)

## **PROCEDURE USED:**

1-First Filter out the projects' reason and what I will work out .

2-I stated some question :What Deja vi is? Who first though about it? How do scientists explain it?

3-I found useful information from secure webs and books.

I wrote them down in my research notebook,

4-I summarized those informations.

5-I made them more understandable for others.

6-See for conclusions.

7-I stated them in a poster including the main information and many pictures.

”

**After a big job and many researches I found that :** -Having a dominant eye doesn't effect déjà vu -Being sleepy doesn't causes déjà vu -Being not focused may cause déjà vu -Epilepsy doesn't cause déjà vu-Being stressed doesn't cause déjà vu

**Conclusion:** *These results provide evidence that the main important topics to study déjà vu occurrence are: divided attention ,the experience may have happened ,you're young and the most difficult and abstract part you lived a past life.*
